Quality Summary

Matching	2834 images tagged. (Discarded 1 image)
PPK fix	79.36%
Mean accuracy	0.35 m horizontal, 0.49 m vertical
Warnings	- The PPK fix percentage is very low. Please check if you are using ellipsoidal height, check for typos like a wrong sign in the specified base location, and check your base files.
Infos	- Not all discarded images are pre-flight images, some images (1) were not tagged because of missing trigger events for this project.
