

## Fundamentals in Data Management for Qualitative and Quantitative Arctic Research Course Registration Live!

As a reminder applications for our first 2024 Arctic data science course is open! Each year, our curation and outreach teams provide hands-on workshops held in Santa Barbara, CA and virtually, and we are pleased to announce there will be two other upcoming data training sessions in 2024. Travel support is available for in-person participation.

**Learn more and apply now!**

## Fundamentals in Data Management for Qualitative and Quantitative Arctic Research

### January 22nd - 26th, 2024 (Santa Barbara, CA)

This in-person workshop will provide researchers with an overview of reproducible and ethical research practices, steps and methods for more easily documenting and preserving their data at the Arctic Data Center, and an introduction to programming in R, paying particular attention to qualitative data management. **Learn more and apply by September 29th,**

**2023 [here](#).**

---

Applications for our data science courses will be released consecutively, with each course having its own designated application period. **The first application window will open on August 16, 2023, and subsequent courses will follow with their respective application dates.** We encourage you to apply to your preferred courses during their respective application periods. Should you have any inquiries, please feel free to contact us. We are excited to welcome you to our data science community in the upcoming year!
